# Arroyo Consulting Dynamic Website Storyboard

1352 Blue Oaks Blvd. Suite 180 • Roseville, CA 95678 • (916) 771-5318 • [www.arroyoc.com](http://www.arroyoc.com)

## Arroyo Consulting dynamic website storyboard

Arroyo Consultings' goal with a dynamic website is to provide our clients with a **TOOL** to administer the dynamic content of their website with easy to use and understand interfaces and steps.

Part of the analysis and design phase is to identify the sections of the website that are candidates for dynamic user administered content, the reality is that administered content can take 2-10 times as long to code as static content depending on the complexity of the content, however, fresh content is what keeps a web site alive and usable to your clients.

Most of our dynamic websites are built using Macromedia ColdFusion MX, SQL Server 2000 and Macromedia Flash MX 2004 (where flash content is requested). We have a large library of core components that we can utilize and customize to fit your specific dynamic website needs.

Administrative interfaces are built with familiar "like" tools such as Word, Excel, Windows File Upload routines. This is important in delivering an easy to use and understand dynamic website to our clients.

The following will illustrate various dynamic areas of existing Arroyo Consulting sites along with the administrative interfaces used to generate the content. You can see all of the websites illustrated in this storyboard as well as many others at our online website portfolio at <http://www.arroyoc.com>

1352 Blue Oaks Blvd. Suite 180 • Roseville, CA 95678 • (916) 771-5318 • [www.arroyoc.com](http://www.arroyoc.com)

## Home page “what’s new”

- This is the Home page as an end user sees it

The screenshot shows a Microsoft Internet Explorer browser window displaying the home page of Edward B. Ward & Co. The browser's address bar shows <http://www.ebward.com/>. The website header features the company name "Edward B. Ward & Co." and the tagline "Better Air Conditioning for everybody everywhere" on a blue background with a globe. A navigation menu includes links for Home, Calendar, Products, Literature, Links, Utilities, Contact Us, and Login. The main content area is titled "Home" and contains a paragraph about the company's history and services, followed by a "What's New at ebward.com" section with three news items. At the bottom, there are three branch locations: South San Francisco, San Jose, and Concord, each with contact information and a "Directions" link. The footer includes a note about browser compatibility and logos for Microsoft Internet Explorer and Netscape.

- This is the Home Page after an admin logs in to the web site, notice the additional buttons that appear on the web page

A screenshot of a Microsoft Internet Explorer browser window displaying the home page of Edward B. Ward &amp; Co. The browser title is "Welcome to Edward B. Ward &amp; Co - Microsoft Internet Explorer". The address bar shows "http://www.ebward.com/index.cfm?fuseaction=home.default". The website header includes the company name "Edward B. Ward &amp; Co." and the tagline "Better Air Conditioning for everybody everywhere". A navigation menu contains links for Home, Calendar, Products, Literature, Links, Utilities, Contact Us, Dealer Options, and Logout. The main content area features a "Home" section with a description of the company's services. A "What's New at ebward.com" section lists several updates, each with a "Change Password" button and an "Add" button. A red text overlay with arrows points to these buttons, stating "Notice additional options available with 'admin' login". At the bottom, there are three branch locations: South San Francisco Branch, San Jose Branch, and Concord Branch, each with contact information and a "Directions" link. The browser status bar at the bottom shows "Internet".

1352 Blue Oaks Blvd. Suite 180 • Roseville, CA 95678 • (916) 771-5318 • [www.arroyoc.com](http://www.arroyoc.com)

- This is the edit page allowing a user to define the what's new content, notice the admin definable fields like which division this appears in (this particular customer has 2 divisions that share the same web site base code), what "order" this item appears in, and what date the item drops off the site on. Also note the "word" like editor used to define the content, this allows admins to add color, tables, links, images, etc... to their content in a familiar interface.

The screenshot shows a Microsoft Internet Explorer browser window displaying the 'Content Editor' page for Edward B. Ward & Co. The page header includes the company name and tagline: "Edward B. Ward & Co. Air Conditioning Distributors. Better Air Conditioning for everybody everywhere." The navigation menu includes: Home, Calendar, Products, Literature, Links, Utilities, Contact Us, Dealer Options, Logout.

The main content area is titled "Content Editor" and contains the following fields and controls:

- Editing Tablename:** whatsnew **Record ID:** 8
- Show In:**  Edward B Ward & Co  Valair
- Sequence:** 80
- Do not show after:** 12/31/2005

The content editor area contains the following text:

Looking for a good deal? Our Scratch & Dent/Surplus inventory system is now online. Click the Products - Scratch & Dent Inventory link above or you can [click here](#).

Annotations on the screenshot include:

- Red arrows pointing to the "Show In" field with the text: "Which 'division' web site this item appears on"
- Red arrows pointing to the "Sequence" field with the text: "Order item will appear in"
- Red arrows pointing to the "Do not show after" field with the text: "Date after item will no longer appear"
- A red oval around the WYSIWYG editor with the text: "WysiWyg 'Word' like editor for content"

At the bottom of the editor area is a "Submit" button. The footer of the page contains the following text:

## Login required equipment list

- This particular customer required a “login” in order to see their equipment list, this is the home page when a user is not logged on

The screenshot shows a Microsoft Internet Explorer browser window displaying the home page of SemiOne, Inc. The browser's address bar shows the URL <http://dev.semione.com/index.cfm?fuseaction=static.home>. The page features a navigation menu with links for "About Us", "Products", "Services", and "Contact Us". A "Registered User Login" section on the left includes fields for "Email" and "Password", "Login" and "Email my Password" buttons, and a "Remember me" checkbox. Below the login section, a list of "Registered user benefits at a glance" includes: "View equipment list", "View new arrivals", "New arrival email notifications", "Featured equipment", "User profile", and "More to come!". A red arrow points to the "Login" button, and another red arrow points to the "Registered user benefits at a glance" list. A red text overlay reads: "Notice left hand area allowing user to login or register". The main content area features a "Home" heading, a paragraph about the company's specialization in remarketing semiconductor and data storage process equipment, and a "New" announcement for a "Former Motorola Scotland MOS16 6" Fab Equip Sale". The page footer includes the text "This site is best viewed with Internet Explorer 6.0+ or Netscape Navigator 7.0+", logos for Microsoft Internet Explorer and Netscape, and contact information: "Website design and programming by Arroyo Consulting. Send mail to [netmail@arroyoc.com](mailto:netmail@arroyoc.com) with questions or comments about this web site. Copyright © 2003 Semione, Inc."

1352 Blue Oaks Blvd. Suite 180 • Roseville, CA 95678 • (916) 771-5318 • [www.arroyoc.com](http://www.arroyoc.com)

- This is the home page when a user is logged on, user can edit profile (base information, keep me informed flag, password, email on file, etc...). Admin's can also define "featured items" which show up once a user is logged on.

The screenshot shows a Microsoft Internet Explorer browser window displaying the homepage of SemiOne, Inc. The browser's address bar shows the URL "http://dev.semione.com/index.cfm?fuseaction=static.home" and the date "Tuesday, June 01, 2004". The website has a blue header with the "SemiOne" logo and a navigation menu with "About Us", "Products", "Services", and "Contact Us". A "Registered User Panel" on the left side displays a welcome message for "Jeff", login details, and buttons for "Edit User Profile" and "Logout". Below this is a "Featured Equipment" section with a thumbnail for "Advanced Energy 3501". A red text box with arrows pointing to the "Edit User Profile" button and the "Advanced Energy 3501" thumbnail contains the text: "Notice left hand area once a user is logged on, featured items are defined by admin's during equipment setup". To the right of the main content, there is a "New" announcement for a "Former Motorola Scotland MOS16 6" Fab Equip Sale". The footer includes contact information and copyright details for Arroyo Consulting and SemiOne, Inc.

1352 Blue Oaks Blvd. Suite 180 • Roseville, CA 95678 • (916) 771-5318 • www.arroyoc.com

- Once a user is logged on they can view the equipment list, this is the equipment list in “non admin” mode, i.e. the user does not have any special privileges.

1352 Blue Oaks Blvd. Suite 180 • Roseville, CA 95678 • (916) 771-5318 • www.arroyoc.com

- Equipment detail screen without admin login, this is the equipment detail screen the end user sees when selecting detail button for the equipment list

The screenshot shows a web browser window titled "SemiOne, Inc. - Equipment Detail - Microsoft Internet Explorer". The address bar shows the URL: <http://dev.semione.com/index.cfm?fuseaction=product.detail&id=10309>. The page content includes a navigation menu with "About Us", "Products", "Services", and "Contact Us". A "Registered User Panel" on the left shows a welcome message for "Jeff" and options to "Edit User Profile" and "Logout". The main content area is titled "Equipment Detail" and features a "Contact Me!" button. A red annotation with an arrow points to this button, stating: "User can click here to pull up contact form for this item". Below the button is a table of equipment details:

Detail Information SI-10309			
Model	QS2200		
Manufacturer	Accent Opto		
Type	Process		
Configuration	4 inch - 8 inch	Qty Available	1
Serial No	42120	Mfg Date	05/01/2001
Description	Accent Opto QS2200 FTIR		

Below the table is a paragraph of text: "Optics stored with dessicant to prevent water damage. Warehoused /Barrier bagged in Italy. Specifically designed for semiconductor applications, the system includes a 60 degrees Michelson interferometric optical unit. Applications can include EPI Film thickness, Dielectric film thickness, Boron and Phosphorus in Dielectrics, Oxygen and Carbon in Si, Hydrogen in SiN, Hydroxide in Amorphous Si, Trench depth monitoring in memory applications. -Fetures high throughput."

A list of features follows:

- SEC/GEMMONITOR HP 17 INCH COLOR
- D8903CE MARK COMPLIES WITH FDA 21 CFR SUB.
- LASER CLASS 2 600uW
- 6326 nm FACILITIES H2O, Ar, N2
- VacPOWER BOX 220/230V 50/60 Hz 1200
- VARS232
- SECS + LAN Configured for 4, 5, 6 and 8 inch wafers
- Spectral range 4800-220 cm-1
- Selectable spectral resolution 0.5 cm

At the bottom, there is a section titled "Equipment images (click for full size)" with a small image labeled "Image 1". A red annotation with an arrow points to the image, stating: "User can click image for a fullsize 'popup'".

1352 Blue Oaks Blvd. Suite 180 • Roseville, CA 95678 • (916) 771-5318 • www.arroyoc.com

- Equipment detail screen with admin login, this is the equipment detail screen the admin sees when selecting detail button for the equipment list, this is where the detail is created for the information an end user sees.

The screenshot shows a web browser window titled "SemiOne, Inc. - Equipment Detail - Microsoft Internet Explorer". The address bar shows the URL: <http://dev.semione.com/index.cfm?fuseaction=product.detail&id=10309>. The page content includes:

- Left Sidebar:** "Last Logged In: 06/02/2004", "Logged In: 64 times", "Edit User Profile", "Logout", "Featured Equipment (click description for detail)", "Advanced Energy 3501".
- Detail Information SO-10309:** Fields for Model (OS2200), Manufacturer (Accent Opto), Type (Process), Configuration (4 inch - 8 inch), Serial No (42120), and Mfg Date (05/01/2001). Buttons for "Add a New Product" and "Add Documents" are present.
- Description:** A text area containing technical details about optics, including "Optics stored with dessicant to prevent water damage..." and "Specifically designed for semiconductor applications...".
- Admin Only Fields:** Fields for Source (Former Motorola Scotland 6" Fab), Sale (Former Motorola Scotland 6" Fab), Date Added (06/01/2004), Date New Expires (06/15/2004), and Featured Product (Expires 06/15/2004). A "Submit" button is located below these fields.
- Equipment images:** A section for "Image 1" with a small thumbnail image.

Red annotations on the screenshot include:

- "Buttons to add new items or images to this item" pointing to the "Add a New Product" and "Add Documents" buttons.
- "All fields are updatable with pull-downs where appropriate" pointing to the dropdown menus for Manufacturer, Type, and Sale.
- "WysiWyg 'Word' editor for describing content" pointing to the description text area.
- "'Admin Only' fields used for display control" pointing to the Source, Sale, and Date fields.

1352 Blue Oaks Blvd. Suite 180 • Roseville, CA 95678 • (916) 771-5318 • www.arroyoc.com

- Equipment detail screen with admin login – add document popup, this is the popup the admin sees when adding documents (images, pdf, zip files associated to this piece of equipment). The admin can give the document a “name” and then “browse” for the appropriate file via a familiar explorer like interface.

A screenshot of a Microsoft Internet Explorer browser window displaying the 'SemiOne, Inc. - Equipment Detail' page. The browser's address bar shows a URL: http://dev.semione.com/index.cfm?fuseaction=product.detail&amp;id=10128&amp;message=The%20database%20record%20for%203501%20has%20been%2. The page features a 'SemiOne' logo and a 'Registered User Panel' for 'Admin'. A central form titled 'Upload a file' contains a description field with 'A test', a file selection field with a 'Browse...' button, and an 'UploadFile' button. A 'Choose file' dialog box is open over the 'Browse...' button, showing a file explorer view of the 'temp' directory with various files and folders. Red annotations with arrows point to the 'Add Image' button in the user panel, the 'Browse...' button, and the 'Choose file' dialog. A note at the bottom of the form states: 'NOTE - May take a while depending on file size!! Only images (jpg, gif) or pdf documents will be accepted.'

## Admin reports

- Some dynamic sites collect information that a client needs to report on, in this example an online golf booking call center needs to be able to view records based on a variety of filters, as screen space is limited the “web view” typically contains only the most critical pieces of information, however, all our reports also have the option to “dump” all data into an excel spreadsheet. This is a sample of the “web view” of the report (tied to an admin login with access to the report of course).

Report can be filtered by any combination of criteria

User can select number of records per page

User can download report to excel or printer

User can sort report by any of these fields

- Filtered report downloaded to excel.

The screenshot shows a Microsoft Internet Explorer browser window displaying the SimpleTeeTimes.com website. The browser address bar shows the URL <https://dev.simpleteetimes.com/index.cfm>. The website header includes the SimpleTeeTimes.com logo and the text "ONLINE GOLF RESERVATIONS". A "SECURED BY ChainedSSL" badge is visible in the top right corner. The date "Tuesday June 01, 2004" is displayed in the top right corner of the browser window.

Overlaid on the browser window is a Microsoft Excel spreadsheet titled "Book2". The spreadsheet contains a table with the following data:

Pkg	Representative	Course Name	Partner	Date & Time Input	Golfer	Preferred Date & Time	Conf #	Status
1	Arroyo, Javier	Arroyo Consulting - Scorpius		1/29/2004 14:05	John Glabas	06/18/2004 05:00a.m.	1000020866	Booked
3	Arroyo, Javier	Arroyo Consulting - Scorpius		2/9/2004 7:45	James Arianne	06/27/2004 10:00a.m.	-1	Released
4	Arroyo, Javier	Arroyo Consulting - Scorpius		2/9/2004 12:05	James Arianne	06/27/2004 11:00a.m.	1000020873	Released
5	Arroyo, Javier	Arroyo Consulting - Scorpius		2/13/2004 12:27	James Arianne	06/27/2004 05:00a.m.	-1	Released
6	Arroyo, Javier	Arroyo Consulting - Scorpius		2/16/2004 10:50	James Arianne	06/27/2004 05:00a.m.	1000020893	Released
7	Arroyo, Javier	Arroyo Consulting - Scorpius		2/16/2004 12:11	James Arianne	06/27/2004 05:00a.m.	-1	Released
8	Arroyo, Javier	Arroyo Consulting - Scorpius		2/18/2004 8:37	James Arianne	06/27/2004 05:00a.m.	-1	Released

The Excel spreadsheet also shows a status summary table on the right side of the window:

Golfers	CC Trans
3	66.60...994-6

## “Traditional” and “Flash” Interfaces

- This particular client had a need to allow pdf literature to be gotten to either via an html (traditional) interface or a Macromedia Flash interface. The admin is similar to those above (i.e. simple end user interface with upload of document), so all that is illustrated here is the end user interface. This is the “traditional” interface

Welcome to Edward B. Ward & Co - Microsoft Internet Explorer

- This is the same “electronic literature room” with a flash interface. There is no additional work involved in the admin of the content.

The screenshot shows a Microsoft Internet Explorer browser window displaying the "ELR Browser" web application. The browser's address bar shows the URL "http://www.ebward.com/index.cfm?fuseaction=literature.roomflash". The page header features the "Edward B. Ward &amp; Co." logo and the tagline "Better Air Conditioning for everybody everywhere", along with the text "Air Conditioning Distributors" and a small image of hands holding a globe. A navigation menu includes links for Home, Calendar, Products, Literature, Links, Utilities, Contact Us, and Login. The main content area is titled "ELR Browser" and contains three buttons: "Search", "Standard Browser", and "Problem Report/Literature Request". Below these buttons, a red circle highlights a hierarchical tree view of the "Electronic Literature Room" content. The tree view shows folders such as "Carrier", "Accessories", "Economizer", "Gas Conversion Kit", "Stacking Kit", "Start Capacitor and Relay Kit", "Twinning Kit", "UV Lamps", and "Applied Systems". A red text box to the right of the tree view states: "Flash presentation uses a familiar 'explorer' like interface". The browser's status bar at the bottom shows "Done" and "Internet".
